### **DETAILED ACTION**

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

#### ***Election/Restrictions***

2. This application contains claims 16-33 drawn to an invention nonelected with traverse in the reply filed May 18, 2005. A complete reply to the final rejection must include cancellation of nonelected claims or other appropriate action (37 CFR 1.144) See MPEP § 821.01.

#### ***Claim Rejections - 35 USC § 112***

3. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

4. Claims 7-14 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. No where in the instant disclosure is disclosed a proportion ratio of the crystalline particles to the other material of 30 to 80wt% as presently recited in claim 7.

5. Claims 7-14 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the

relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The specification as originally filed provides no support for the proportion ratio of the crystalline particles to the other material of 30 to 80wt% as presently recited in claim 7.

6. Claims 7-14 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 7, “the other material” has no antecedent basis. Other claims are deemed indefinite in view of their dependency upon claim 7.

***Claim Rejections - 35 USC § 102***

7. Claims 7-14 and 34-36 are rejected under 35 U.S.C. 102(e) as being anticipated by the Toyoda patent (US 6,932,920).

Claim 7: The Toyoda patent teaches a complex material comprising crystalline nanoparticles having a particle size of 5 nm to 100 nm (col. 7, lines 32-35), the surface of which is coated with a surfactant. See claim 1. The nanoparticles have the composition identical as claimed (col. 7, lines 3-27). Additionally, an elastic material (“the other material”) is present from 30 to 80wt% (col. 5, lines 15-22).

Claims 8-12: See col. 5, lines 23-32 and col. 6, lines 19-44.

Claims 13-14: See col. 7, lines 62-67 and col. 8, lines 1-31.

Claim 34: See claim 1, col. 7, lines 32-35 and col. 5, lines 54-65.

Claim 35: See col. 10, lines 8-12.

Claim 36: See rejection to claim 34 and col. 7, lines 3-27.

***Conclusion***

8. Applicant's amendment, which added an "other material" to the claimed complex material, necessitated the new ground(s) of rejection presented in this Office action.

Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
